

## SAUNACORE WOOD-FIRED SAUNA HEATER LIMITED WARRANTY

The following materials and workmanship in your new SAUNACORE wood fire place are warranted against defects for as long as you own the fire place. This covers: combustion chamber, ceramic glass (thermal breakage only), ashdrawer, and cast iron castings are covered and SAUNACORE will provide replacement parts free of charge during the first year of the limited warranty. Labour related to warranty repair is covered free of charge during the first year. Repair work, however, requires the prior approval of an authorized company official. Any repair work must be done by SAUNACORE only.

### CONDITIONS AND LIMITATIONS

SAUNACORE warrants its products against manufacturing defects to the original purchaser only -- i.e., the individual or legal entity (registered customer) whose name appears on the warranty registration card filed with SAUNACORE -- provided that the purchase was made through an authorized SAUNACORE dealer and is subject to the following conditions and limitations:

This factory warranty is non-transferable and may not be extended whatsoever by any of our representatives. The wood fireplace must be installed by a QUALITIFIED technician or contractor. Installation must be done in accordance with the installation instructions included with the product and all local and national building and fire codes.

This limited warranty does not cover damages caused by misuse, lack of maintenance, accident, alterations, abuse or neglect will nullify this warranty. Shipping costs, removal costs, etc are not covered by the warranty.

This limited warranty further does not cover any scratches, dents, corrosion or discolouring caused by excessive heat, abrasive and chemical cleaners nor chipping on porcelain enamel parts, nor any venting components used in the installation of the fireplace.

In the first year only, this warranty extends to the repair or replacement of warranted parts which are defective in material or workmanship provided that the product has been operated in accordance with the operation instructions and under normal conditions.

The bill of sale or copy will be required when making any warranty claims from your authorized dealer. The warranty registration card must be returned within fourteen days to register the warranty, with a copy of the receipt. SAUNACORE reserves the right to have its representative inspect any product or part thereof prior to honouring any warranty.

## WARNING !!

- This fireplace can be very hot when burning.
- Combustible materials such as firewood, wet clothing, etc. placed too close can catch fire.
- Children and pets must be kept from touching the fireplace when it is hot.
- The chimney must be sound and free of cracks. Before installing this unit, contact the local building or fire authority and follow their guidelines.
- Operate only with the door tightly closed.
- Do not use an elevated grate or otherwise raise the fire.
- This fireplace is designed to burn natural wood only. Higher efficiencies and lower emissions generally result when burning air dried seasoned hardwoods, as compared to softwoods or to green or freshly cut hardwoods.
- Do not start a fire with chemicals or fluids such as gasoline, engine oil, etc.
- Do not burn treated wood, coal, charcoal, colored paper, cardboard, solvents or garbage.
- Do not let the fireplace become hot enough for any part to glow red.
- KEEP THE STOVE TOP TEMPERATURE BELOW 700°F (371°C). Attempts to achieve heat output rates that exceed design specifications can result in steel distortion and damage.
- Use a pre-fab UL listed floor mat beneath the heater or on walls around wood burning stove, or thick concrete slab, cement boards, etc.
- All wood-fired sauna heaters must have a chimney, use only a stainless steel UL listed class "A" insulated chimney or equivalent.
- All chimneys must extend 3 ft above the roof surface and a minimum of 2ft above any part of building that is within 10ft.
- The least amount of bends in the chimney allows more updraft.
- Use a chimney cap to prevent water and birds, etc from entering.
- Sauna wood-fired heaters should be installed in sauna rooms or structures that are detached from other dwellings/buildings or residence.

REGULATIONS OF LOCAL FIRE AUTHORITIES MUST BE OBSERVED IN ADDITION TO THE ABOVE INSTRUCTIONS.
