

# CRYPTON®

super fabric

With over 100 million yards sold, Crypton® has been used from the White House to Buckingham Palace, proving it's THE choice for fabric durability and long term aesthetics.

Crypton® Super Fabric has an integrated, impenetrable barrier that means spills, splashes, leaks and dribbles will never seep through to the padding or stuffing. Crypton® Super Fabric is permanently stain, moisture, mildew, bacteria and odor-resistant. It is also the only fabric on the market deemed a nonporous surface and can be easily disinfected with our U.S. EPA-approved Crypton® Disinfectant & Deodorizer. Produced in the U.S.A., Super Fabric offers the ultimate in protection from life's messes.
