

CARE AND MAINTENANCE
HAMMERED STAINLESS STEEL

CARE & MAINTENANCE

- Clean your sink on a frequent basis rather than a heavy duty cleaning once in a while.
 - Use a non-abrasive cleaning cloth combined with a mild cleaning procedure free of bleach (e.g. *The original Dawn®*).
 - Do not use steel wool on your sink. If aggressive cleaning is needed of your stainless steel sink, we recommend Flitz Polish Paste or Liquid Metal Polish for a deep cleaning to restore the shine. After polishing, you can use Flitz Faucet Wax Plus to protect the sink from normal patina. Follow the provided product directions.
 - Keep your sink shiny and free of water spots by towel drying after every use.
- * The use of any cleaners or disinfectants other than mild soap and water will void the warranty. Also, personal care and everyday use products (e.g. *face cleansers, toothpaste, male grooming products, wine, fruit acid, and ketchup*) can and will alter the finish voiding the warranty.
